## Scholarship Overview

All program applications submitted and completed by the priority deadlines will have first advantage to apply for scholarships. While we tend to award many of our scholarships during the priority period, any remaining scholarships will be awarded to those who are eligible and merit one. Scholarships require a separate application that will be sent to eligible applicants shortly after receiving an admissions decision. Criteria for selection of awards include demonstrated excellence in academia or professional pursuits, as assessed in your admission and scholarship applications. Availability and amounts of scholarship awards vary year-to-year.
